

COMPACT TABLE SAW

COMPACT TABLE SAW: Everything you've come to expect from a SawStop, in their smallest, most portable saw yet. Packed with features that bring power, precision, cut capacity, and safety to every job site.

LEGENDARY SAFETY SYSTEM: SawStop's patented safety system stops a spinning blade on contact with skin. The blade stops in less than 5 milliseconds and drops below the table, minimizing a potentially life-altering injury to a mere scratch.

RACK & PINION FENCE: Easy to adjust and always square. The built-in high and low shelf supports all kinds of cuts.

QUICK-TILT BEVEL WITH MICRO ADJUSTMENTS: All blade adjustments are made from the centrally located knob. Quickly and easily tilt the blade to your ideal angle with just one hand. Dial in your precise settings with the micro-adjust feature.

STORAGE COMPARTMENT: Stow away included accessories and more in one location for easy retrieval.

OPTIONAL STAND: Folds flat for convenient and features wide footing and non-skid rubber feet for stability.
