1 Identification

- · Product identifier
 - · Product number LUA432
 - Trade name: <u>ACR CLEAR SELF-S 40SH</u> • Application of the substance / the mixture For professional use
- · Details of the supplier of the safety data sheet
 - *Manufacturer/Supplier:* IVM Chemicals srl Viale della Stazione 3 - 27020 Parona (PV) Italy tel +39 038425441
 - Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
 - · Emergency telephone number:
 - ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

2 Hazard(s) identification

· Classification of the substance or mixture

GHS02 Flame

Flam. Liq. 2 H225 Highly flammable liquid and vapor.

GHS08 Health hazard

Carc. 2	H351	Suspected of causing cancer.
Repr. 2	H361	Suspected of damaging fertility or the unborn child.
STOT RE 2	H373	May cause damage to the central nervous system and the hearing organs through prolonged or repeated exposure. Route of exposure: Oral and Inhalation.
· · · · · · · · · · · ·		

GHS07

Eye Irrit. 2A H319 Causes serious eye irritation.Skin Sens. 1 H317 May cause an allergic skin reaction.STOT SE 3 H336 May cause drowsiness or dizziness.

· Label elements

- · GHS label elements
- The product is classified and labeled according to the Globally Harmonized System (GHS). • *Hazard pictograms*

· Signal word Danger

• *Hazard-determining components of labeling:* isobutyl acetate xylene ethylbenzene

(Contd. of page 1) toluene methyl methacrylate · Hazard statements H225 Highly flammable liquid and vapor. H319 Causes serious eye irritation. H317 May cause an allergic skin reaction. H351 Suspected of causing cancer. H361 Suspected of damaging fertility or the unborn child. H336 May cause drowsiness or dizziness. H373 May cause damage to the central nervous system and the hearing organs through prolonged or repeated exposure. Route of exposure: Oral and Inhalation. · Precautionary statements Keep away from heat/sparks/open flames/hot surfaces. - No smoking. P210 P241 Use explosion-proof electrical/ventilating/lighting/equipment. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/ international regulations. · Classification system: · NFPA ratings (scale 0 - 4) Health = 2Fire = 3Reactivity = 0· HMIS-ratings (scale 0 - 4) HEALTH 2 Health = 2Fire = 3FIRE 3 Reactivity = 0REACTIVITY 0

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Description: Mixture: consisting of the following components.

· Danger	ous components:		
110-19-0	isobutyl acetate	25-29.99%	
	 Flam. Liq. 2, H225 STOT SE 3, H336 		
123-86-4	n-butyl acetate	15-19.99%	
	 Flam. Liq. 3, H226 STOT SE 3, H336 		
141-78-6	ethyl acetate	12.5-15%	
	 Flam. Liq. 2, H225 Eye Irrit. 2A, H319; STOT SE 3, H336

4 First-aid measures

· Description of first aid measures

· General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

personal protective equipment for first aid responders is recommended. (please see section 8) \cdot *After inhalation:*

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

· After skin contact: Immediately wash with water and soap and rinse thoroughly.

• After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist , consult a doctor.

- · After swallowing: Do not induce vomiting; immediately call for medical help.
- Information for doctor:
 - Most important symptoms and effects, both acute and delayed Allergic reactions
 - For symptoms and effects caused by substances, refer to Section 11.
 - *Indication of any immediate medical attention and special treatment needed* No further relevant information available.

5 Fire-fighting measures

· Extinguishing media

· Suitable extinguishing agents:

Alcohol resistant foam

Alcohol resistant foam, CO, powder, water spray/mist.

7 Handling and storage

· Handling:

· Precautions for safe handling Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols. Protect against electrostatic charges. Keep respiratory protective device available. Use explosion-proof apparatus / fittings and spark-proof tools. · Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available. · Conditions for safe storage, including any incompatibilities · Storage: • Requirements to be met by storerooms and receptacles: Store in a cool, well-ventilated area, away from heat and sources of ignition Provide solvent resistant, sealed floor. Observe the label precautions, the expiration date for the use, if not indicated, is from

delivery date of goods. In cases where there is no reported expiration date , it means that the product must be used

- within 8 months.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions:
- Keep receptacle tightly sealed.
- Store in cool, dry conditions in well sealed receptacles.

· Specific end use(s) Those typical of the product and the instructions in the data sheet if required.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

10 Stability and reactivity

 \cdot **Reactivity** typical of the product as indicated in the data sheet

- Chemical stability The product is stable in normal conditions of storage and use recommended • Thermal decomposition / conditions to be avoided:
 - No decomposition if used and stored according to specifications.

• Possibility of hazardous reactions

Reacts with oxidizing agents.

Vapours may form explosive mixtures with air

- Conditions to avoid No further relevant information available.
- \cdot Incompatible materials: No further relevant information available.
- · Hazardous decomposition products:

in case of possible formation of combustion:

 Sensitization: Sensitization possible through skin contact. Additional toxicological information: Irritant Causes serious eye irritation. May cause drowsiness or dizziness. Contains methyl methacrylate. May produce an allergic reaction. Carcinogenic categories Ethylbenzene From IARC MONOGRAPHS VOLUME 77/2000 Human carcinogenicity data Two studies of workers potentially exposed to ethylbenzene in a production plant an styrene polymerization plant were available. In the first study, no excess of cancer incident was found but the description of methods was insufficient to allow proper evaluation of finding. In the second study, no cancer mortality excess was observed during the follow of 15 years. Evaluation There is inadequate evidence in humans for the carcinogenicity of ethylbenzene. There sufficient evidence in experimental animals for the carcinogenicity of ethylbenzene. IARC (International Agency for Research on Cancer - Cl. 1 and 2)
